Class Rank Request Form
(GRADUATES PRIOR TO 2007 ONLY)

Official class rank is reported as a numerical placement for students in the top 10% of their class and division. Students not in the top 10% of their class and division receive a group rank. The group rank is the only ranking reported on the official academic transcript.

(Note: Special part-time and transfer students receive an equivalency ranking; DPT students are ranked with the Evening Division for their class year).

All students may request their numerical placement in their class and division. For students other than those in the top 10% of their class, this numerical rank is unofficial only.
